IN RE: ATMOS ENERGY CORPORATION	DOCKET NO. TF-03-67
--	---------------------

**ORDER DOCKETING PROPOSED TARIFF FILING
FOR FURTHER REVIEW**

(Issued April 8, 2003)

On March 10, 2003, Atmos Energy Corporation (Atmos) filed with the Utilities Board (Board) a proposed revision to its current transportation tariff. The proposed tariff has been identified as Docket No. TF-03-67. The purpose of the change would allow Atmos a means of charging transportation customers for the storage resources used on the customer's behalf for daily balancing purposes. The current tariff gives transportation customers a 10 percent tolerance level for daily imbalances. The change would remove the tolerance level.

Board staff has requested additional information from Atmos concerning the effects of the proposed tariff. To allow time for Atmos to respond to Board staff inquiries, allow for full consideration of the proposed tariff revisions, and for Atmos to notify the affected customers of this proposed change (if this has not already been done), the Board will docket the proposed tariff. The Board will determine at a later date if a procedural schedule is necessary.

IT IS THEREFORE ORDERED:

Tariff filing TF-03-67 is docketed for further review.

UTILITIES BOARD
